

Personal and Community Action:

What can you do?

- Increase your scientific knowledge of climate change.
- Commit to taking responsible action to help mitigate global warming.
- Engage your family, friends, and others in conversations about global warming.
- Be respectful, trustworthy, and confident in what you say about global warming.
- Keep in touch with us electronically at scifun@chem.wisc.edu
- Buy less stuff. (Reduce/Reuse/Recycle)
- Change those light bulbs. (And turn them off.)
- Use a programmed thermostat.
- Eat less meat. (Especially beef)
- Walk, bike, use more public transportation. Fly less.
- Switch to a car with better fuel economy or an electric vehicle.

RAISE YOUR VOICE

IN EVERY ELECTION!

And recruit at least five eligible voters who haven't voted.
