**Vaughn Vandegrift**

Chancellor, SIU–Edwardsville

**St. Louis ACS Joint Great Lakes & Midwest  
Regional Meeting  
October 21, 2011**

# Questions for the Panel and Audience

- What are the grand challenges in chemistry today?
- Are we prepared and ready to address these challenges?
- Are we likely to succeed in convincing society to support us in addressing the challenges?
- Why should anyone pursue a career in the chemical sciences?
- What are the employment prospects in the chemical sciences?
- What can/should we do to raise the public awareness of the importance of chemistry in daily life?
