

Science, the Arts, and the Humanities

Carl Djerassi, Professor of Chemistry emeritus, Stanford University, is the author of 5 novels and 4 plays and the founder of the Djerassi Resident Artists Program.

Felice Frankel, a science photographer, is a research scientist at MIT and the author of *Envisioning Science, the Science and Craft of the Science Image*.

Roald Hoffmann, Frank H. T. Rhodes Professor of Humane Letters and Professor of Chemistry, Cornell University, is a theoretical chemist, writer and low-key impresario.

Dava Sobel, a former New York Times science reporter, has written for numerous magazines, including *Audubon* and *The New Yorker*, and is the author of *Longitude* and *Galileo's Daughter*.

Bassam Shakhshiri, UW-Madison, is celebrating the 35th anniversary of "Once Upon a Christmas Cheery in the Lab of Shakhshiri," as shown on PBS and cable stations.

Chemagination

Chemagination high school poster competition awards will be presented during the program.

SUNDAY, 2:00–5:00 PM, PHILADELPHIA MARRIOTT, LIBERTY BALLROOM

Cosponsored by the Division of Chemical Education

Speakers, all of whom have excelled in exploring and cultivating the intellectual and emotional links between science, the arts, and the humanities, will share their experiences and creative works.
