

# ComSciCon is a science communication workshop for graduate students, by graduate students.

ComSciCon's goal is to empower future leaders in technical communication to share the results from research in their field to broad and diverse audiences.

**Cambridge, MA**  
**June 18<sup>th</sup> – 20<sup>th</sup>**  
Become part of a growing network of science communication innovators!

- All graduate students in STEM fields are invited to apply.
- 50 graduate students are selected from all applicants to attend – selection is competitive!
- There is no registration fee and travel support and accommodations are provided to non-local attendees.

This year's sessions include:

- Science Communication in Popular Culture
- Communicating as a Science Advocate
- Multimedia Communication for Scientists

What previous attendees are saying –  
“This was a truly fantastic, transformative, and educational experience. Probably the highlight of my PhD thus far. I have never been so inspired or motivated.”
